There is a list of proposed sites included in this; and then for the final sites, the names appear on the narrative summaries. Let me know if this message is OK.

Dennis

Subject: Useful Information for Next Week's NPL Rules

Right now we are on schedule for our Thursday, September 2 publication of the proposed and final NPL rules. In the proposed rule, we are proposing 10 sites (including 1 Fed facility) and de-proposing 1 site (GBF Dump). In Final Rule #50, we are adding 6 sites to the NPL. Also, in a second final rule (because of AA recusal), we are adding the Newtown Creek, NY site to the NPL.

The HQ press release is scheduled to go out on the afternoon of Tuesday, August 31 (see attached press release). When the press release is issued on August 31, we will also be posting all of the rule information (including narrative summaries, doc records and support documents) and a pre-publication version of the FR notices on the Superfund web site (<http://www.epa.gov/superfund/sites/npl/current.htm>).

I have included below the docket numbers for the proposed sites, instructions for submitting comments and narrative summaries.

The rules are scheduled to be signed by our AA today or tomorrow. I will let you know when they are signed or if there is any delay.

Please let me know if you have any questions.

Terry
